

Controlling your digital signs should be easy

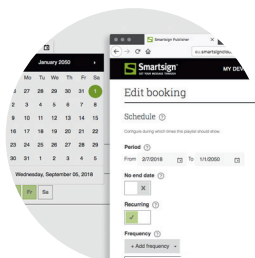

The core – Smartsign Display Manager

The digital signage solution is known as Smartsign Display Manager. It gives you quick and easy control over digital signage as a marketing channel. With Smartsign Display Manager, you control your message and can deliver exactly what you want. The platform is extremely stable and flexible, and is suitable for all industries. It is also user-friendly, which means that everyone in the company can use Smartsign to inform and inspire.

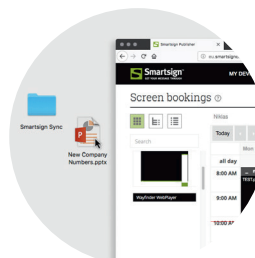

Web-based interface

Support for most browsers. No software needs to be installed for users.

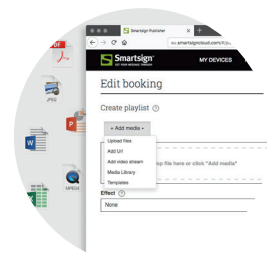

Calendar-based scheduling

Plan and schedule when the content is to be displayed on screens, e.g. Mondays 09:00-10:00.

Automated workflows

Monitor files – when the scheduled file has been edited, the screens are updated automatically. You can also monitor RSS flows or Twitter etc.

Extensive file format support

Support for most common file formats, e.g. PowerPoint, Excel, Word, PDF, video, HTML.

Two versions of the same reliable product

Smartsign Display Manager is available in two different versions. **Standard** and **Pro**. If you choose standard, you will have your content displayed in full-screen mode. If you choose the Pro version, you will be able to divide your content into multiple layers and areas on the screen.

Support and training

Smartsign offers first-class service and technical support. We invest a lot in developing together with our customers. We hold weekly online training courses, where you have the chance to learn how to use the tool. Read more about how you contact our support or book a seat on our online training course.

Cloud or local installation

Both versions are cloud-based but can also be deployed as local installations on premise, giving you full control of your server environment.
